REMARKS:

By letter dated April 23, 2007, Dr. Julie Field, Research Associate, with the Archaeological Research Facility, University of California at Berkeley, requested a right-of-entry onto State lands at Makeanehu, Kaihooa-Pahinahina, North Kohala, Hawaii, Tax Map Key: 3<sup>rd</sup>/ 5-8-01: 6 and 5-9-03: 1. This collaborative project directed by Dr. Patrick Kirch (UC Berkley), will be accompanied by Drs. Michael Graves (UH Manoa), Thegn Ladeforged (U Auckland), and Peter Vitusek (Stanford), to analyze prehistoric dryland and irrigated wetland agricultural systems in Kohala, and collect data pertaining to households and population growth in prehistory. This project is funded by the National Science Foundation as part of their Human Social Dynamics research program and is a continuation of previously completed work in Kohala by Drs. Kirch, Graves, Ladeforged, and Vitousek. The archaeological survey protocol shall follow Hawaii Administrative Rules, Chapter 13-276, Rules Governing Standards for Archaeological Inventory Surveys and Reports. Purpose of this right-of-entry will be to conduct coastal survey and mapping for the identification and surface recording of residential and ceremonial/religious sites within the area. They wish to further scientific understanding of Hawaiian prehistory, and determine how changes at the household level were linked to the emergence of a regional-scale integrative political economy. This phase of the project will be completed within three months, commencing on June 1, 2007.

Parker Ranch, Lessee, has granted the University of California, Berkeley, a right-of-entry over its fee simple and leasehold properties under their management. Rights-of-entries have been granted to the University of Hawaii at Manoa over the past six (6) years for similar purposes.

The Division of Historic Preservation has been consulted and does not object to the project or its proposed archaeological activities.

Staff has no objections to the request.

RECOMMENDATION:

That the Board, subject to the Applicant fulfilling the Applicant Requirements above, authorize the issuance of a right-of-entry permit to the University of California-Berkeley, its consultants and/or persons acting for or on its behalf, covering the subject area under the terms and conditions cited above, which are by this reference incorporated herein and further subject to the following:

1. The standard terms and conditions of the most current right-of-entry permit form, as may be amended from time to time;

2. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.
3. Authorize the Chairperson to issue future right-of-entries to the Applicant in relation to its investigation, study, and survey of prehistoric agricultural and habitation sites.

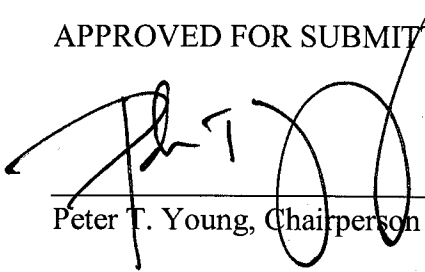

Respectfully Submitted,

---
